-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed June 11, 2004 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has **not been considered**.

Applicant needs to submit a copy of Foreign Patent 3600504.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 2-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 2, “each side reverse swept deflector being a relatively thin protrusion exhibiting a gap between a face oriented toward its adjacent A-pillar and the A-pillar” (lines 2 and 3) is not clear. What is meant by “a gap between a face oriented toward its adjacent A-pillar and the A-pillar”?

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3612

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 7 is rejected under 35 U.S.C. 102(b) as being anticipated by Molaskey et al. 3,785,699.

Regarding claim 7, Molaskey et al. '699 discloses a vehicle comprising left and right side windows (17); left and right side A-pillars (14) forward from the left and right side windows (17); and left and right side reverse swept deflectors (10) extending from the left and right side A-pillars (14) into any slipstream generated by forward movement of the vehicle in Figure 1.

Allowable Subject Matter

6. Claim 1 is allowed.
7. Claims 8-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
8. The following is a statement of reasons for the indication of allowable subject matter:

The recitations of the specific features of the vehicle windshield molding attached around the circumference of a windshield and set in a frame defined by a body of the vehicle in claim 1 including especially the construction of the left and right side reverse swept deflectors extending outwardly from the second lip adjacent vehicle A-pillar into slipstream generated by forward movement of the vehicle is not taught nor is fairly suggested by the prior art of record.

Art Unit: 3612

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The cited references show several other wind deflectors similar to that of the current invention.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lori L. Coletta whose telephone number is (703) 306-4614. The examiner can normally be reached on Monday-Friday 6:00am-2:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Dayoan can be reached on (703) 308-3102. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
